*Ex Parte Quayle*

This application is in condition for allowance except for the following formal matters:

The drawings are objected to because Figure 2 shows the retaining zipper 16 attached to an upper edge of the securing member 10, when it has been disclosed as being located adjacent to the center of the securing member 10. Note that as shown in Figures 1 and 3 the zipper 16 is located below the hook and loop fastener patch 18 adjacent the center of the securing member 10, and yet in Figure 2 it is shown as being located along an upper edge of the securing member 10, directly above the fastener patch 18. The applicant should also note that the term “securing means” was not used by the examiner when this objection was set forth in the First Office Action, and since the drawings form part of the disclosure and show the zipper 16 as being placed adjacent the center of the securing member 10 it would appear that Figure 2 is in error.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
